

# Grill Grease Caddy Quick **USER GUIDE**

**STEP 1** Scrape the grilling surface into the grill grease drawer until it is clean.

**STEP 2** Pull out the grease drawer and carefully pour it into the Grill Grease Caddy.

**STEP 3** Return grease drawer. Wheel caddy to UCO tank.

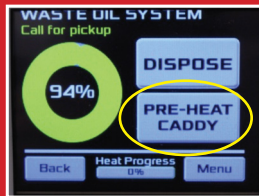

**STEP 4** Be sure Caddy motor is OFF.

**STEP 5** Connect power cord to Caddy.

**STEP 6** Plug other end of power cord into UCO tank.

**STEP 7** It's important to preheat the Caddy. On the UCO Tank control panel, choose PRE-HEAT CADDY. There is a progress bar. Screen will alert when pre-heat is complete.

**STEP 8** Connect hose to Grill Grease Caddy body and, other end, to the UCO tank.

**STEP 9** Turn Caddy motor ON. Press DISPOSE on UCO tank Control Panel. Grease flows to tank.
